³ Actual user-accessible internal storage may differ depending on operating system and other built-in applications.

⁴ UHD video file formats may vary among products. Device does not support video playback in all UHD file formats. Format of video content recorded or saved on device may not be supported on all Samsung products and may not be available for viewing on some products. Please check individual product user manual for details.

⁵ Requires stable 4G network connectivity in addition to Wi-Fi® connectivity; additional data charges apply. Supported on HTTP 1.1 protocol only, for files more than 30MB in size. Actual experienced speeds may vary. For more information, see www.samsung.com/sg/galaxynote4.

⁶ Not intended for clinical or medical use, including diagnosis, treatment, monitoring, alleviation, compensation, cure, prevention or mitigation of any disease, ailment, defect, injury or other conditions.

⁷ Based on Samsung's internal standby time test results when device is at rest. Standby time is dependent on network configuration, app usage, mode settings, actual device usage, battery condition and other surrounding factors and conditions. For more information, see www.samsung.com/sg/galaxynote4.

⁸ Dependent on network, SIM card, usage and battery condition.

Note: Certain features, services and applications (including 4G+ LTE) are dependent on network connectivity and may not be available in all coverage areas. Additional data charges may apply. Specifications are accurate as at time of print and are subject to change without prior notice.

Do you Note?

Samsung GALAXY Note 4 4G+

SAMSUNG

Big on purpose. Bigger on inspiration. See sharper and clearer on the 5.7" Quad HD SUPER AMOLED display. Capture moments shake-free with Smart OIS and fit more into your shots with Wide Selfie.

Frost White

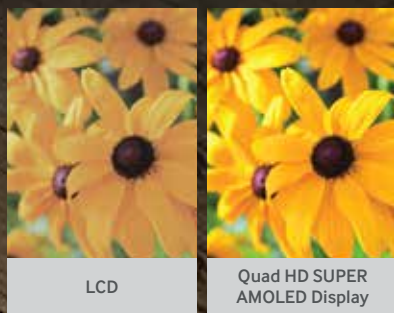

4G+

IMMERSE IN BRILLIANCE

Premium metal frames the **5.7" Quad HD SUPER AMOLED display**. The vividly detailed screen boasts 4 times better resolution than regular HD. With a wide colour spectrum that has more than 90% Adobe® colour reproduction rate¹ and a brilliant contrast ratio of 100,000:1, your viewing experience is sharper, more life-like and immersive than standard LCD display.

¹ More than 90% Adobe® RGB Colour Gamut, 100% NTSC @ CIE 1931

LCD

Quad HD SUPER AMOLED Display

Quad HD (2560 x 1440)

SHAKE-FREE IMAGES EVERY TIME, ANYTIME

The 16MP rear camera features **Smart OIS** (Optical Image Stabilisation), giving you shake-free photos and videos even in low light conditions. At the front, the 3.7MP camera with f1.9 lens allows 60% more light so selfies still look perfect under low light situations.

FIT MORE IN ONE FRAME

Want to fit more friends into the shot? Activate **Wide Selfie** mode, which allows more angle at 120° instead of the standard 90°, so no one gets left out of the epic 'wefie'.

THE BETTER WAY TO NOTE

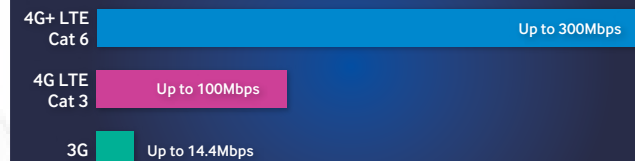

Photo Note lets you save all your meeting or lecture notes with minimal effort. It converts handwritten notes into editable digital notes that you can rearrange and modify. Complete with the S Pen's doubled sensitivity at 2048 pressure levels (versus its predecessor at 1028), your digital handwriting experience is now just as realistic as writing with a pen on paper.

THE FASTEST CONNECTION TO DATE

4G+ LTE Cat 6 **supports up to 300Mbps**, letting you browse, download and connect at lightning speed. That's 3x faster than LTE Cat 3 so you get to what's important to you quicker.

Network Connection Speed

Battery Life² (Minutes)

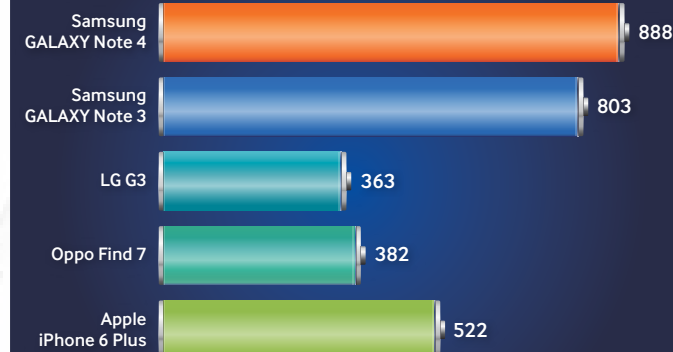

Table adapted from HardwareZone.com - Samsung GALAXY Note 4 4G+: More than big, 7 Oct 2014
Full review at www.hardwarezone.com.sg/m/review-samsung-galaxy-note-4-4g-more-big

BATTERY THAT KEEPS UP WITH YOU

GALAXY Note 4 4G+ has the capability to outlast thanks to improved **Battery Life** coupled with the power efficient SUPER AMOLED display. A battery test conducted by HardwareZone revealed the device to have "by far the best battery performance in our records of any phone, ever."

²Actual experienced battery life may vary.
