

Creating business value,
together.

Simple, yet cost effective business connectivity via an intelligent network service

Getting your business connected can be complex and costly. The StarHub Switched Ethernet Intelligent Network System (SW-E) however, solves this problem in a simple, yet intelligent manner.

Connectivity elements like your office intranet, internet accessibility, and direct access to Application Service Providers (ASPs) can be seamlessly bridged via our intelligent network solution.

Simple connectivity

Connect your business with a next-generation network, delivered over the StarHub MPLS backbone. With just a single infrastructure, you also get to enjoy scalable bandwidth of up to 1 Gbps.

Highly flexible and scalable

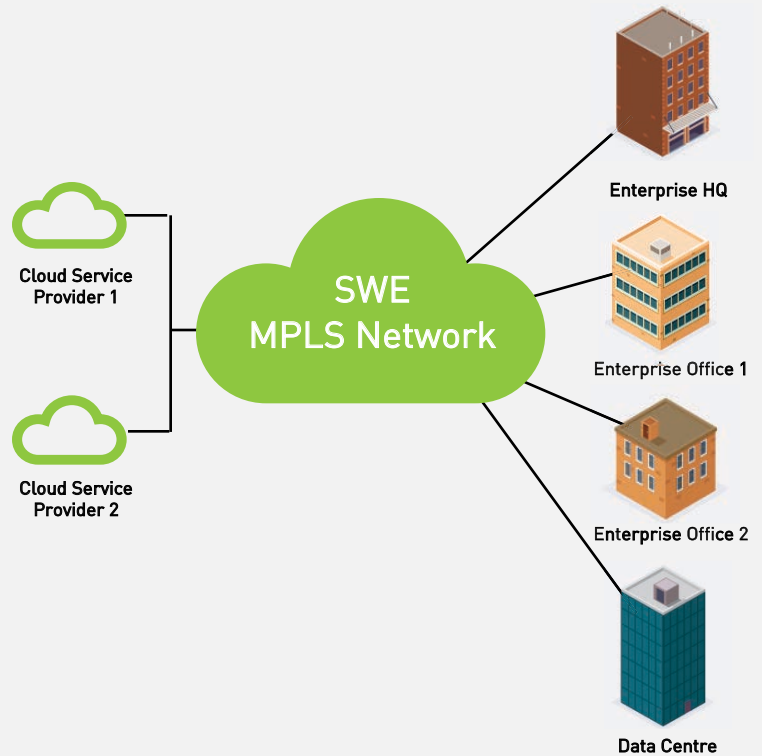

Our IPv6-ready network solution is highly scalable and supports seamless connectivity regardless of access technology. It offers multiple classes of services (CoS) based on your needs.

Worry-free management

Fully managed, 24/7 technical support and 99.95% service availability. Minimal CAPEX investment required in configuration and management.

Smart and affordable connectivity for business of all sizes

Switched Ethernet Services Offering

Intranet

Provides secure communication links between your offices.

Internet (Static IP only)

Suitable for Internet communication requirements, and comes bundled with StarHub router.

VAS

Cloud Connect

Intelligent MPLS technology connecting multiple offices to major cloud service providers through a single VPN, bypassing the internet.

Bandwidth-on-Demand

Increase the bandwidth according to your business needs, via an intuitive and easily accessible online portal.

Managed Router Service

Optional service that includes a SW-E managed router, fully configured to suit your needs. Opt for self-configuration by subscribing to Router Maintenance scheme.

Disaster Recovery

Ensures business continuity by connecting data centres, and other key sites through multiple redundancy methods, back to the corporate VPN.

StarHub is a leading provider of information communications solutions that matter to businesses in Singapore and beyond. We are passionate about co-creating innovative solutions that can help businesses stay ahead of change, delivering flexibility to meet unique requirements, and ensuring reliability that allow the organizations we serve do what they do best. With peace of mind.
